

ARDEX TECHNICAL UPDATE

Update 149

September 23, 2020

To: ARDEX Sales Professionals, Sales Managers, Corporate (select); web; social media

From: ARDEX Technical Department

Technical Approval Required for Certain Veneer Applications

Due to the wide variability of veneer stone weights, we must closely evaluate exterior vertical applications and require Technical approval ahead of certain applications. Going forward, a written, project-specific recommendation is required for the use of ARDEX products in the following exterior veneer applications:

- All natural stone installations
- All manufactured stone installed at over 10' in height

Should you have any questions on this information, or if we can be of further assistance, please contact the ARDEX Technical Service Department.
