- **Skin**: Symptoms may include mild redness or itching.
- **Eyes**: Symptoms may include mild redness, itching, or pain.
- **Ingestion**: None known.

Effects of long-term (chronic) exposure: None known.

Indication of need for immediate medical attention or special treatment:

- Difficulty breathing persists after removing the person to fresh air.
- Any exposure to the eye which causes irritation.

### SECTION 5 – FIRE FIGHTING MEASURES

**Suitable extinguishing media**: Carbon dioxide, dry chemical powder, or alcohol foam. Water spray for larger fires.

**Unsuitable extinguishing media**: Water jet may spread the burning material.

**Hazardous combustion products**: Carbon monoxide, carbon dioxide, nitrogen oxides, as well as other toxic vapors and gases which are common to thermal degradation of organic compounds.

**Special fire-fighting procedures/equipment**: Firefighters should wear proper protective equipment and self-contained breathing apparatus with full face piece operated in positive pressure mode. Move containers from fire area if safe to do so. Water spray may be useful in cooling equipment exposed to heat and flame. After fires have been extinguished, carefully clean all equipment and surfaces exposed to fumes.

**Environmental precautions**: Do not allow material to enter drains or contaminate ground water system.

**Fire hazards/conditions of flammability**: Not flammable under normal conditions of use. Closed containers may rupture if exposed to excess heat or flame due to a build-up of internal pressure.

**NFPA Rating**: 0 - Minimal 1 – Slight 2 – Moderate 3 – Serious 4 – Severe

### SECTION 6 – ACCIDENTAL RELEASE MEASURES

**Personal precautions**: Restrict access to area until completion of clean-up. All persons dealing with clean-up should wear the appropriate chemically protective equipment.

**Protective equipment**: Refer to Section 8 on this Safety Data Sheet, EXPOSURE CONTROLS / PERSONAL PROTECTION, for additional information on acceptable personal protective equipment.

**Emergency Procedures**: If a spill/release in excess of the EPA reportable quantity is made into the environment, immediately notify the national response center in the United States (phone: 1-800-424-8002).

**US CERCLA Reportable quantity (RQ)**: None reported.

**Methods and materials for containment and cleaning up**
Ventilate area of release. Stop spill or leak at source if safely possible. Contain product with inert absorbent material, preventing it from entering sewer lines or waterways. Gather up spilled material and place in suitable container for later disposal (see Section 13). Residual of product, while still wet, can be cleaned up with warm soapy water. Notify the appropriate authorities as required.
